

Introduction

This chapter presents statistics in three sections: “Domestic trade”, “Foreign trade” and “Hotels”.

1. Domestic trade. The first survey of trade establishments was conducted in the cities of Tehran and Esfahan by the General Department of Public Statistics of the Ministry of the Interior in the years 1332 and 1336 respectively. Following the United Nations recommendations, the General Department of Trade Statistics of the Ministry of Finance of the time conducted a survey in the year 1344, the results of which were disseminated. In the year 1345, the General Department of Statistics of the Ministry of Economy of the time implemented a pilot census of wholesale establishments in Tehran, the results of which were disseminated in the year 1346. Also, the mentioned Department collected and disseminated data relating to trade establishments in 250 cities of the country through sample surveys from the year 1346 to the year 1351. In connection with the compilation of national accounts, the Central Bank of the Islamic Republic of Iran has collected trade statistics since years ago.

The Statistical Centre of Iran executed two pilot sample surveys during the years 1355 and 1356, one in the city of Rasht and the other in Tehran, Zahedan, Kermanshah and Khorramshahr. In the 1355 and 1365 National Population and Housing Censuses and the 1370

Population Survey, statistics on nationwide trade establishments were collected.

In late 1366 and early 1367, a survey of establishments engaged in the sale and purchase of commodities in urban areas was executed on a large scale by the SCI. Then, in the year 1369, statistical information on these establishments was collected in both urban and rural areas. In the year 1373, a sample survey of trade establishments (place of selling and purchasing goods) was carried out.

In addition, this chapter presents statistics for types of transactions registered in notary public and land registration offices representing some of the trade activities provided by the State Organization for Registration of Deeds and Properties.

Statistical data on urban and rural cooperatives included in the statistical yearbook have been obtained from related organizations since the years 1339 and 1342 respectively. Statistics on rural cooperatives and unions presented here are from the Central Organization of Rural Cooperatives, and statistics on other cooperatives are from the Ministry of Cooperatives.

2. Foreign trade. Statistics on foreign trade of Iran have continuously been produced and disseminated since the year 1279. They are annually provided by Iran Customs Administration according to data in reports of in-

coming and out-going commodities released from the customs houses of the country.

3. Hotels. Statistics on the quality of accommodations of the country, the number of rooms and beds have been included in this Chapter which used to be collected from Iran Tourism and Touring Organization of the Ministry of Culture and Islamic Guidance till the late year 1382, but since the late-year 1382, Iran Tourism and Touring Organization merged with the Cultural Heritage Organization of the country and formed Iran Cultural Heritage, Handcrafts and Tourism Organization" (ICHTO) from which the mentioned statistics are obtained. Presenting this kind of statistics has a long history and since the year 1342, i.e., "the establishment of Tourists Attraction Organization, the related data have been collected and included in the Iranian Statistical Yearbook since the year 1345.
