

Introduction

Welfare and social security activities are carried out as supportive (non-insurance) and insurance services by several government and non-government organizations and centres. However, due to the inaccessibility of data on non-government organizations, this chapter presents only statistical information on services rendered by major government organizations, excluding services rendered by non-government centres supervised by the State Welfare Organization.

It should be mentioned that since the year 1391, the name of the Medical Services Insurance Organization has been changed to the Iran Health Insurance Organization.

A. Supportive services (non-insurance): This refers to social work, consultative, and other social and rehabilitation services provided to meet the essential needs of low-income groups and improve the living conditions of the socially disadvantaged population and families of martyrs and Janbazan (the war-disabled). The active organizations concerned are as follows:

- 1. State Welfare Organization:** Before the year 1359, various organizations were responsible for providing relevant services throughout the country. In the year 1359, all the concerned organizations were merged to form a new state welfare organization aimed at enhancing the provision of rehabilitation, support, and prevention services for disabilities and social problems, as well as assisting in meeting the basic needs of low-income groups. Data on welfare activities, prepared by the relevant departments, have been presented in the Iran Statistical Yearbook since the year 1345.

- 2. Emam Khomeini Relief Committee:** This Committee was established in the year 1357 to address and assist with the affairs of socially-deprived groups. Since the year 1361, statistics on the Committee's activities have been collected and released.

- 3. Martyr and Devotees' Affairs Foundation:** In the year 1383, the Islamic Revolution Martyrs' Foundation and the Mostazafan and Janbazan Foundation merged to form the Martyr and Devotees' Affairs Foundation. The two foundations were established in the years 1357 and 1358, respectively, to address the affairs of the martyrs' and Janbazans' households. Data on the activities of these foundations have been available since the years 1370 and 1373, respectively.

- 4. Red Crescent Society of the I. R. of Iran:** The organization known as the Iranian Red Lion and Sun Society was established in the year 1301 and was renamed the Red Crescent Society of the I. R. of Iran in the year 1360. Statistics on its activities have been collected and published in the Iran Statistical Yearbook since the year 1345.

B. Insurance services: These services, which are based on contributions from insured individuals, employers, and the government, are provided in various forms. These include medical, retirement, disability, unemployment, work-related accidents, death, prenatal insurance, and family allowance. The organizations involved in this sector are as follows:

- 1. Social Security Organization:** In the year 1309, workers were insured for the first time against work-connected accidents. By establishing the Social Security Organization in the year 1354, the number of insured groups and types of insurance rose increasingly. Data on

this area have been compiled and included in the statistical yearbook since the year 1345.

2. Iran Health Insurance Organization: The Organization was established according to the General Medical Services Insurance Act approved in the year 1373. Related register data have been accessible since the year 1374. Prior to the establishment of the Organization, the "Medical Services Insurance Act for Government Employees" had been approved in the year 1351 and was enforced by the Ministry of Health in the year 1353.

3. Farmers, Villagers, and Nomads Insurance Fund: This Fund started working in the year 1384 in order to provide the public with easily accessible and suitable social insurance services. The statistics of this Fund were first published in the year 1386.

4. Civil Servants Pension Fund: The activities related to retirees' affairs and providing retirement services would be done by ministries and organizations during the years 1301 and 1305; however, statistical data on retirees and pensioners covered by the "Civil Servants Pension Fund" were first released in the year 1350. The Civil Servants Pension Fund was established and started its activity as an independent organization at the beginning of the year 1354.

All the above-mentioned organizations produce statistical data in the form of register data.

1. Detailed information on the number of amblyopia prevention centers is not available.

2. The significant decrease in the number of children receiving services in the year 1399 compared to the previous year is due to the outbreak of the coronavirus and the lack of visits to amblyopia prevention centers.

1. Including Ghonche Helal (the name of a youth group), youth, scholars of religious science, university students, school students, and rural groups.

2. Members are individuals who make financial contributions to society.

3. People who provide services include participation, guidance, support, and skill groups.

4. The decrease in the number of individuals compared to the previous year is due to the development of a new database for members, volunteers, and aid workers of the Red Crescent Society, as well as the collection of data from each of them and gradual data entry into the newly developed system. With more data entry, the number of individuals in the following years will increase.

5. This year, the number of volunteers was included in the "Members" category.

1. Including insured persons in own-account occupations, weavers, drivers, voluntary, construction workers, and others. Moreover, by considering the special nature of porters and mosque servants, these types of insurance were removed from the agreed type of insurance from the year 1390 on and were put into the special one.
